Send address changes elsewhere to *National Institute Economic Review*, Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge, CB2 8BS, England.

### Aims and Scope

*The National Institute Economic Review* is the peer-reviewed quarterly publication of the National Institute of Economic and Social Research, one of Britain's oldest and most prestigious independent research organisations. The Institute's objective is to promote, through quantitative research, a deeper understanding of the interaction of economic and social forces that affect peoples' lives so that they may be improved. It has no political affiliation, and receives no core funding from government. Its research programme is organised under the headings of Economic Modelling and Analysis; Productivity, Education and Training and the International Economy. The Review has a long history of publishing leading articles in macroeconomics, forecasting and the impact of events such as Brexit and Covid-19 on households and specific industries. NIESR Forecasts can be found at: <https://www.niesr.ac.uk/forecasts>

Copyright © National Institute of Economic and Social Research, 2021. Apart from fair dealing for the purposes of research or private study, or criticism or review, and only as permitted under the Copyright, Designs and Patent Act 1988, this publication may only be produced, stored or transmitted, in any form or by any means, with the prior permission in writing of the Publishers, or in the case of reprographic reproduction, in accordance with the terms of licences issued by the Copyright Licensing Agency, UK.
